REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The following is a statement of reasons for the indication of allowable subject matter: The instant application discloses a linear minimum mean-square error receiver. Prior art references show similar methods but fail to teach: **"computing a first inner product of a vertical concatenation of the first and second observation vectors with a first receiver vector to produce a first symbol estimate; and computing a second inner product of the vertical concatenation of the first and second observation vectors with a second receive vector to produce a second symbol estimate"**, as in claim 15; **"filter a received signal with a time reverse of an upper component, of a receiver vector to yield a first output, filtering the received signal with a time reverse of a lower component of the receiver vector, to yield a second output"**, as in claims 22 and 26.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
